## Jehs+Laub Lounge Collection

Educated at the prestigious University of Design in Schwäebisch Gmünd, Markus Jehs and Jürgen Laub forged a friendship during New York internships that would become the foundation for a formidable design partnership spanning both industrial and interior design.

The Jehs+Laub Collection for KnollStudio reinterprets Knoll's pioneering introduction of sculptural furniture objects within an architectural context. The sweeping form of the Lounge Chair, featuring a streamlined profile and a composed, enveloping interior inspired by the traditional craft of quilting, is at ease in the workplace or home.

The Lounge Chair and Ottoman are refined and approachable, providing a subtle framework for repose. Featuring two distinctive base options, a polished aluminum swivel platform with optional return to center mechanism, or a dynamic polished chrome wire base, both bases are available with a black textured paint finish. Selection of a self welt or contrasting leather welt is a standard upholstery choice.

The Jehs+Laub Collection reflects the KnollStudio® commitment to timeless, enduring design, continuing the Knoll legacy of production furniture to the exacting standards of the designer and affirming our unwavering belief in the power and utility of modern design.
